

FACT: Cigarette butts
are the #1 littered item.

Litter bugs.

Litter on roadways and in your community finds its way into storm drains and ends up polluting our rivers and beaches.

These are some of the ways you can help prevent this kind of pollution:

- Always use a trashcan.
- Never throw anything out of a car or truck.
- Always carry a litter bag in your car.
- Pick up litter in your neighborhood.
- Set an example for others by not littering.
- Dispose of cigarette butts in an ashtray or trash can.

**Thank you for helping keep California
and your community clean!**
